

The Helloj Emergency Response Mobile App

...the Emergency Response Mobile App for use by all Earth's citizens during all sorts of crisis situations

A highly disruptive Emergency Response Mobile App that seamlessly gets the various emergency response teams (i.e., POLICE, FIRE, AMBULANCE, SOS, NADMO, TM TOWING, etc) to the scene where rescue is needed at and on-time, all the time, to save lives and properties.

The Traffic Management System (TM Towing) which is incorporated into this disruptive app seeks to help seamlessly flow heavy vehicular traffics in all cities and towns in Ghana, and across the globe where the app has been rolled out.

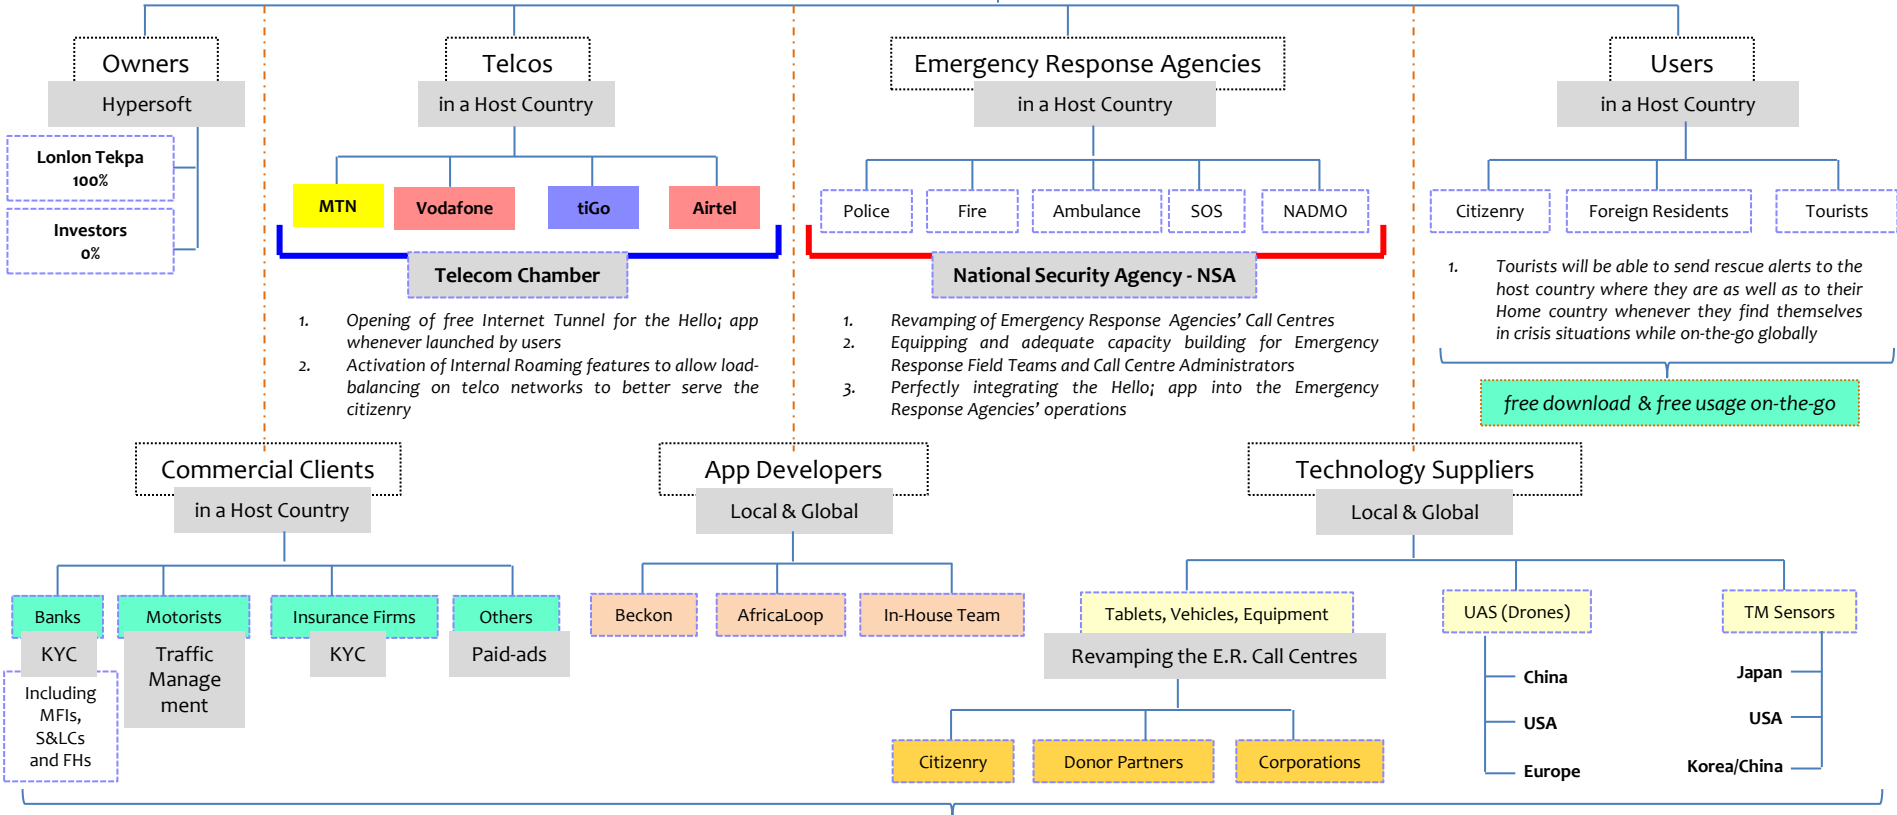

First Responders' MobileApp
